ABSTRACT

Reports submitted to the National Center for Education Statistics provided data for this compilation and tabulation of data on adult participants in U.S. educational programs in fiscal year 1976. In the summary section introducing the charts, it is noted that adult education programs funded under P.L. 91-230 served over 1.6 million persons--an increase of more than 35% over the 1.22 million participating in fiscal year 1975--of whom over half were women. Six charts and thirty-two tables show breakdown of information by sex, by age, by state and territory, by staff and program characteristics (including training data for various types of state and local personnel), by separations/completions, by race/ethnicity (including three tables on Indochinese refugees), and, in some cases, by change in numbers since 1972. The survey report form is appended. (CP)

NATIONAL CENTER FOR EDUCATION STATISTICS

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."--Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

Foreword

Beginning with data from the 1966-67 year, the National Center for Education Statistics (NCES) has worked with the Division of Adult Education of the Bureau of Adult and Occupational Education to prepare annual summary reports on adult education programs sponsored by P.L. 91-230, as amended. In addition to summarizing information from the most current year, in this case 1975-76, these reports present comparative information from the past 5 years, here for 1971-72 to 1975-76. The information used comes directly from the annual reports on adult education activities submitted to the Division by each State, the District of Columbia, and participating outlying areas. Editing of the data is done by the States, the Division, and NCES.

The tables in the reports summarize data on enrollments, student characteristics, completions, separations, teachers, classroom facilities, and inservice training of teachers and other staff members. Table formats are kept consistent from year to year to enable users to make comparisons easily.

Acting Director
Division of Postsecondary and
Vocational Education Statistics

May 1979

Acknowledgments

This report was developed from reports submitted by the Adult Basic and Secondary Education Coordinators in the various States and other areas. Their cooperation in providing the initial data and in responding to editing requests was the key to the completion of this project.

This publication was developed in the Adult and Vocational Education Surveys Branch, by Barbara A. Whalen with the supervision of Sylvester H. Cain. Technical advice on the development of tables was provided by Charles Lauthers. Ruth Minnis typed the manuscript.

Close cooperation in the project was extended by the Division of Adult Education through Paul V. Delker, Director. Key to the design of the tables and charts was Sharon A. Jones, Education Specialist, Program Development Branch, who also provided expert help on the data and worked in liaison with the States as data were edited.

Introduction

The adult basic and secondary education program administered by the U.S. Office of Education was established under the Adult Education Act of 1966 (P.L. 91-230). This program offers to persons 16 years of age and older[1] the opportunity to overcome English-language difficulties and attain reading, writing, and computational skills through the 12th-grade level of competence. The program also offers students the opportunity to acquire a high school diploma.

Each of the 50 States, the District of Columbia, and 5 outlying areas[2] (together termed "aggregate United States") has established and operates adult basic and secondary education programs, funded in part by the Office of Education.

[1]On June 30, 1969, the minimum age limitation was reduced from 18 to 16 years by the Vocational Education Amendments of 1968. The collection instrument included the new minimum for the first time for fiscal year 1971.

[2]American Samoa, Guam, Puerto Rico, the Trust Territory of the Pacific Islands, and the Virgin Islands.

To participate in the funding program, each State or other area (except the Trust Territory of the Pacific Islands) must provide at least 10 percent of program costs and retain total responsibility for planning, supervisory services, teacher training, curriculum development, evaluation, and all essential services for enrollees through the 12th grade.

The Office of Education (OE) also awards grants to schools, colleges, universities, and public and private nonprofit organizations for special projects and teacher-training projects. The Act also authorizes direct contracts with institutions and organizations to develop new teacher-training techniques.

This report is composed of a short summary of fiscal years 1972 through 1976 and a more detailed section on fiscal year 1976 statistics. The 5-year summary provides some historical perspective. Most of the data were compiled from the annual program reports (see appendix) submitted by each State or other area.

The 1971 change lowering the minimum age of students served from 18 to 16 years formerly complicated comparisons. However, since this is the 5th year the program has served 16-year-olds, researchers interested in analyzing trends should have little difficulty.

Summary, Fiscal Years 1972 through 1976

During fiscal years 1972 through 1976, nearly 5.5 million persons received training under the Adult Education Act (table 1). Enrollments in the last 3 years were noticeably higher than in the preceeding 2, with over 30 percent of the total participants for the period enrolled during 1976.

Women consistently constituted the majority of those served by adult basic education programs, with only slight deviations from year to year.

As might be anticipated, since the 1969 amendments to the Act made persons between 16 and 18 eligible, the percentage of those under 25 has been increasing. Between 1972 and 1976, the proportion of all students served who were between 35-44 dropped from 19 to 16 percent. Those 45-54 accounted for 12 percent of the total in 1972 but only 8 percent in 1976. These data may reflect the fact that many in these age brackets may have already been served by the program.

Since the form for reporting fiscal data was changed, no attempt has been made to compare financial data for fiscal years 1974, 1975, and 1976 with those from earlier years.

Fiscal Year 1976

Participation

In fiscal year 1976, adult education programs funded under P.L. 91-230 served over 1.6 million persons, an increase of more than 35 percent over the 1,221,210 participating in fiscal year 1975 (table 1). Several States accounted for a high percentage of the enrollment. These included California with 256,319, Florida with 265,625, and Texas with 122,437 enrollees. As in recent years, both the Carolinas, North Carolina with 81,366 and South Carolina with 82,451 participants, reported considerably higher enrollments than many larger States, such as New York with 58,016 and Illinois with 59,930 participants.

Sex

As in past years, women constituted more than half (55 percent) of the adult basic and secondary education participants. Table 2 shows their participation by State, which ranged from a high of 73 percent in the Virgin Islands to a low of 43 percent in North Carolina.

Age

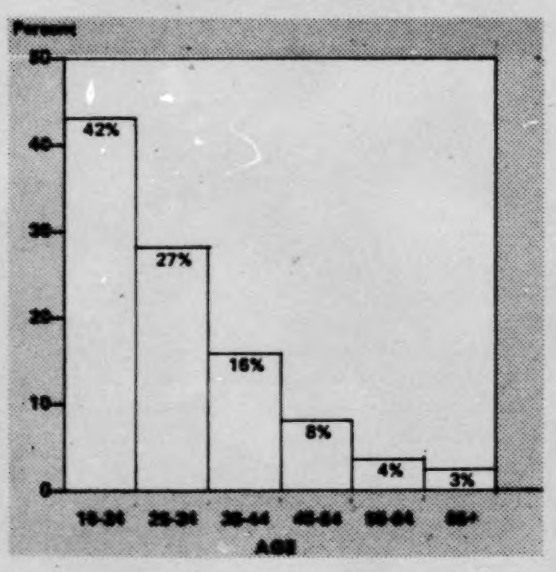
Chart 1 and table 3 present information on the ages of persons enrolled. The two largest age groups are 16-24 with 687,654 (42 percent of all participants) and 25-34 with 451,029 (27 percent). Age data for 1974, 1975, and 1976 are summarized below:

Age	1974	1975	1976
16-24	362,580	492,615	687,654
25-34	260,753	338,140	451,029
35-44	171,390	195,225	259,889
45-54	94,058	110,716	139,782
55-64	44,152	50,407	67,277
65 and over	24,041	34,107	50,463

Race/ethnicity

Minority-group members have been a particular target of the adult basic education program. Comparable statistics on their involvement in 1976 (from chart 2 and table 4) and 1975 follow:[1]

Chart 1.--Percent distribution of participants in adult basic and secondary education programs, by age: Aggregate United States, fiscal year 1976



[1]In some cases, original data provided by the States was slightly inconsistent from one table to another. Where telephone calls to the States did not produce complete consistency, NCES imputed the data using information from the prior year for those States, or data from those States provided.

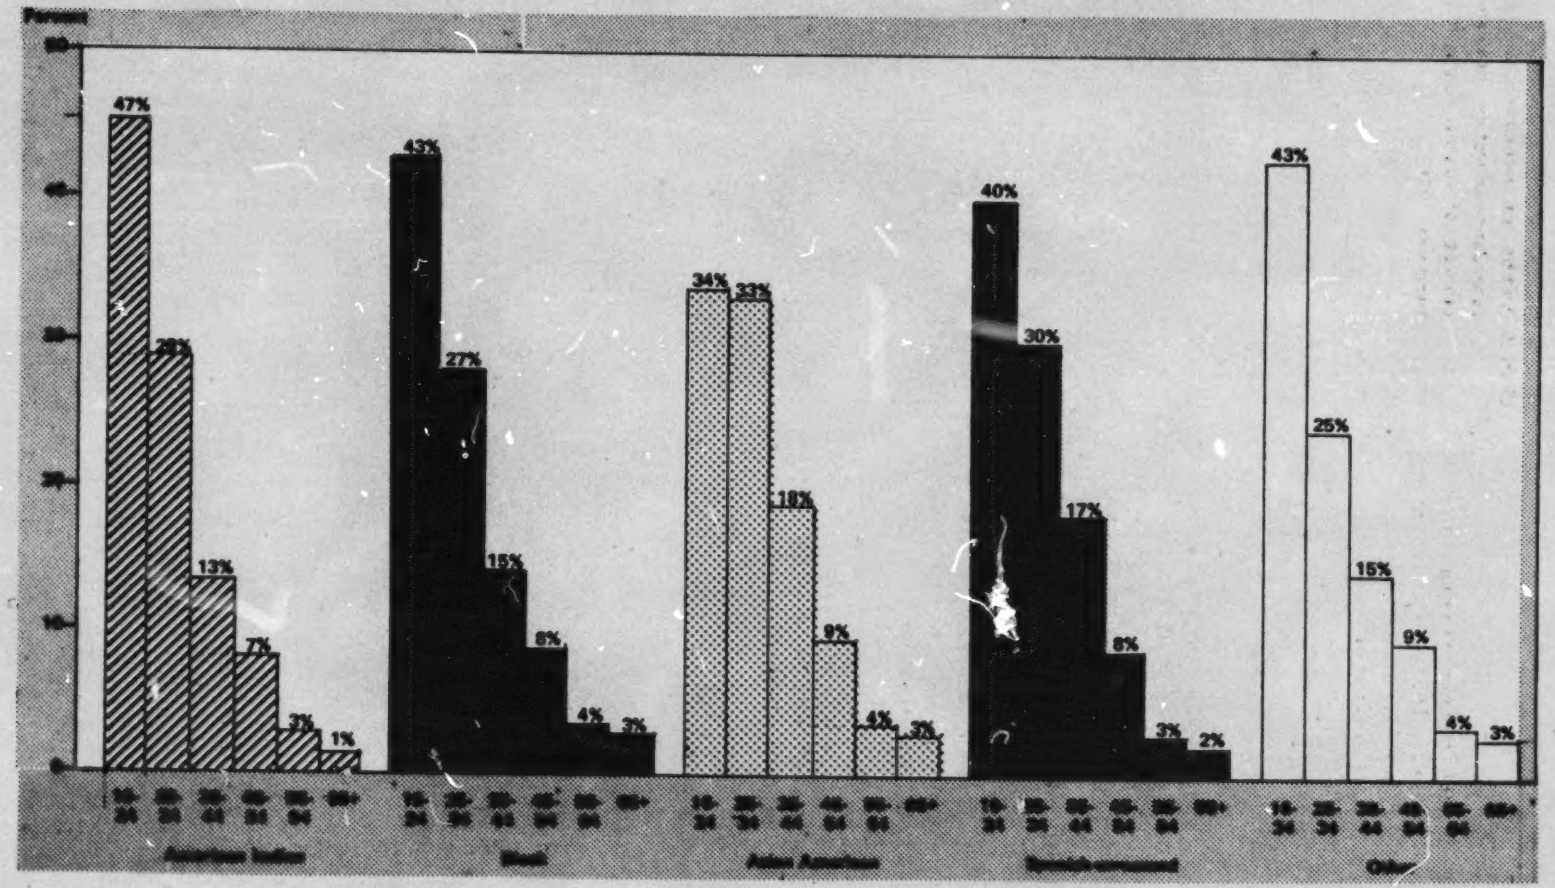
Chart 2.--Number of participants in adult basic and secondary education programs, by race/ethnicity of student: Aggregate United States, fiscal year 1976

	1975	1976	Percent increase
American Indian	14,159	17,277	22.0
Black	344,808	394,440	14.3
Asian American	67,750	137,178	102.4
Spanish-surnamed	270,256	360,223	33.2
Other	524,237	741,976	41.5

A series of tables presents more detailed information on enrollment for these racial/ethnic groups: table 5 for American Indians, table 6 for Blacks, table 7 for Asian Americans, table 8 for Spanish-surnamed participants, and table 9 for members of other races.

Two charts present details on enrollment by racial/ethnic group and age. In chart 3, the relative participation rates are shown for the five race/ethnic categories by age. In every category the largest number of participants were from the 16 to 24 age

Chart 3.--Percent distribution of participants in adult basic and secondary education programs, by race/ethnicity and age: Aggregate United States, fiscal year 1976



group. The second largest for all categories was the 25 to 34 age group. Thus, rates for racial/ethnic groups tended to agree with national ratios. Chart 4 shows the proportion of enrollment in each age group from each race/ethnicity.

Completions/Separations

A total of 622,370 persons, or 38 percent of those enrolled, left adult basic and secondary education programs before completion. This is lower than the 40 percent figure for 1975. Table 10 presents the reasons for leaving cited by participants. Excluding the undefined "other" category, the two largest categories were "met personal objective" (86,025) and to "take a job" (59,648). Both included persons likely to have benefited from programs even though they failed to complete them. Chart 5 shows that the relationship between enrollments, separations, and completions is consistent across grade levels.

Educational progress

Table 11 shows participants' educational progress after entering adult basic and secondary education programs. The data indicate that 73,717 persons entered high school, 129,683 passed the General Educational Development (GED) test for high school graduation equivalency, and 115,013 enrolled in "other education." Again, these three figures are much higher than those for 1975. Sharp variations by State are noted, depending upon the program involved—reflecting, no doubt, the particular emphasis of the State. Over one-third of the 123,347 participants who received eighth-grade diplomas came from Florida, California, Iowa, Texas, North Carolina, and Missouri. Nearly one-fourth of the 73,717 who entered high school came from Florida and California. North Carolina, Texas, and Florida reported high numbers of participants passing the GED test, while Nevada, Hawaii, and Arizona showed low totals. Texas, North Carolina, and California reported relatively high numbers graduating from high school, while California, Texas, and Pennsylvania indicated large enrollment figures in the "other education" category.

Table 12 shows the numbers of participants who, as a result of the programs in which they had enrolled, registered to vote for the first time, obtained U.S. citizenship, obtained a driver's license, or prepared an income tax return.

Employment Status

Table 13 shows that of those participants for whom employment information was provided, 43.8 percent were employed, 44.8 percent unemployed, and 11.3 percent on public welfare rolls.

A total of 62,721 persons obtained employment after participating, and 19,149 were removed from welfare rolls. Among those already employed, 45,027 were able to obtain better jobs.

Table 14 shows that, of the participants for whom such data were available, 81.9 percent were in urban programs and 18.1 percent in rural programs.[2]

Staff and Program Characteristics

Staff

Table 15 shows the numbers of staff and student-teacher ratios by State. There were 39,447 teachers, 2,543 counselors, and 7,744 paraprofessionals. The national average student-teacher ratio was nearly 42 students to one teacher, ranging from 105 to 1 for California to 17 to 1 for Pennsylvania.

Sixty-nine percent of the staff took some form of training during 1976 (table 16). In some States, almost all of the teachers received training (e.g., 100 percent in Nevada and Guam), while in others the percentage was much lower (e.g., 25 percent in Utah). The large majority of staff members who did receive training took between 1 and 16 hours.

Tables 17 through 21 present staff and training data for the various types of personnel employed in adult basic and secondary education at State and local levels. Table 17 presents these data for State administrative and supervisory personnel, table 18 for local administrative and supervisory personnel, table 19 for local teachers, table 20 for local counselors, and table 21 for local paraprofessionals.

Instructional level

The States were asked to categorize their adult basic and secondary education training by comparable elementary or secondary grade level.

---

[2]Urban: Communities with Population Over 100,000
Rural: Communities with population under 2,500.

Chart 4.--Percent distribution of participants in adult basic and secondary education programs, by race/ethnicity and age: Aggregate United States, fiscal year 1976

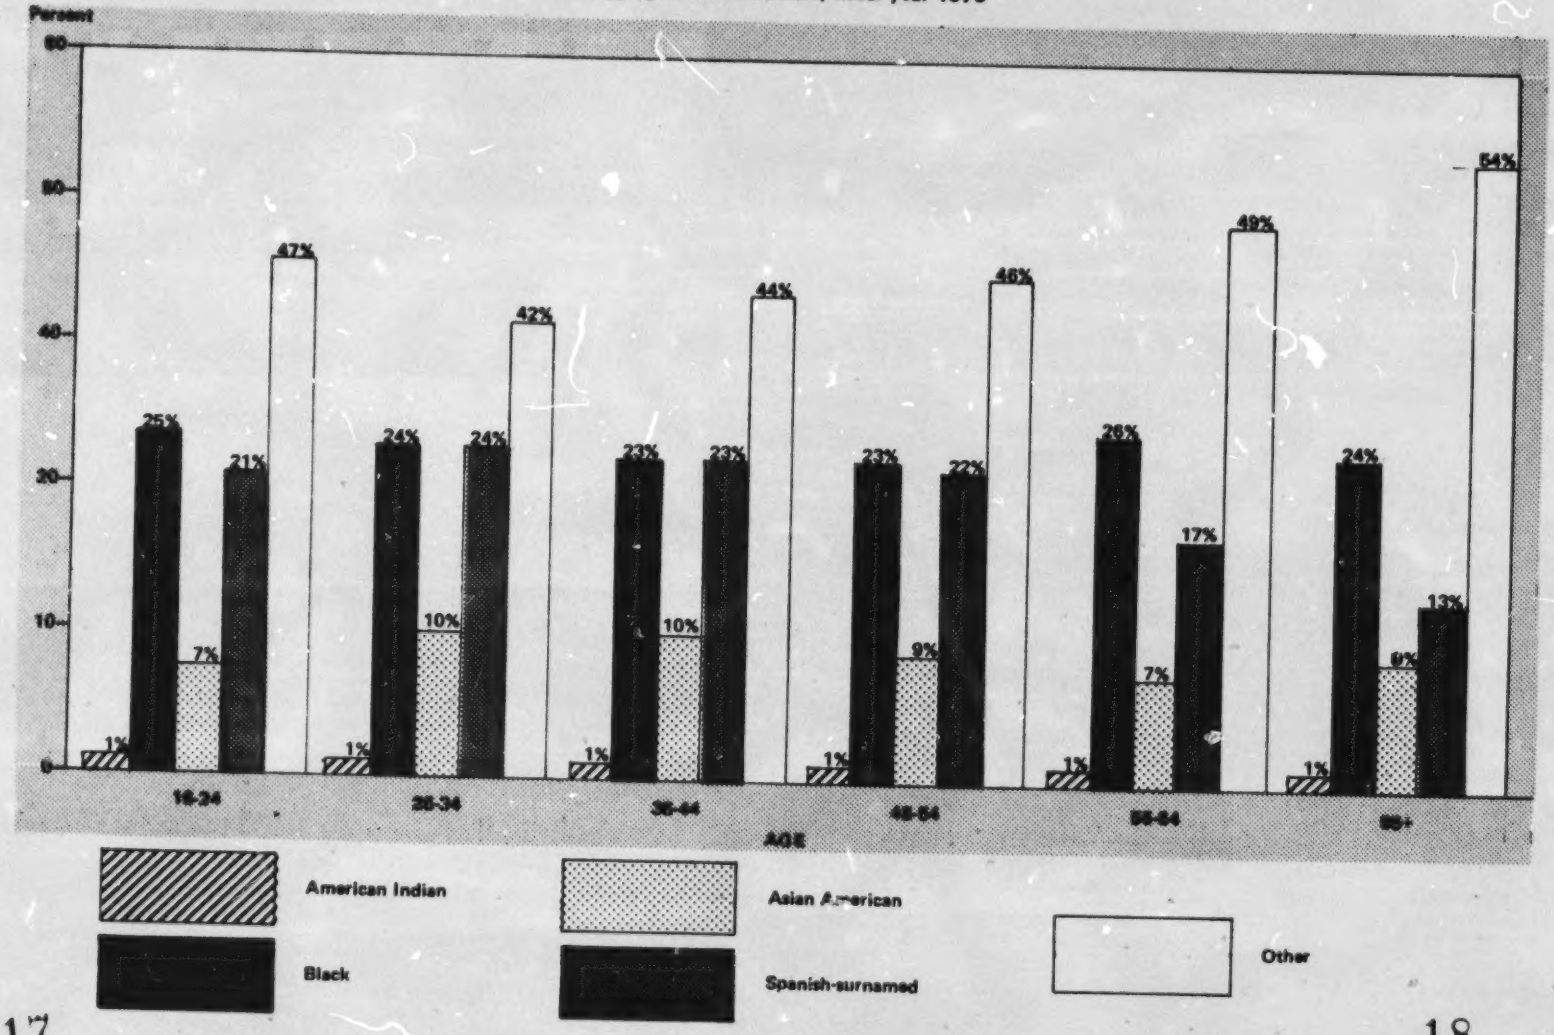


Chart 5.--Number of adult basic and secondary education program enrollments, separations, and completions: Aggregate United States, fiscal year 1976

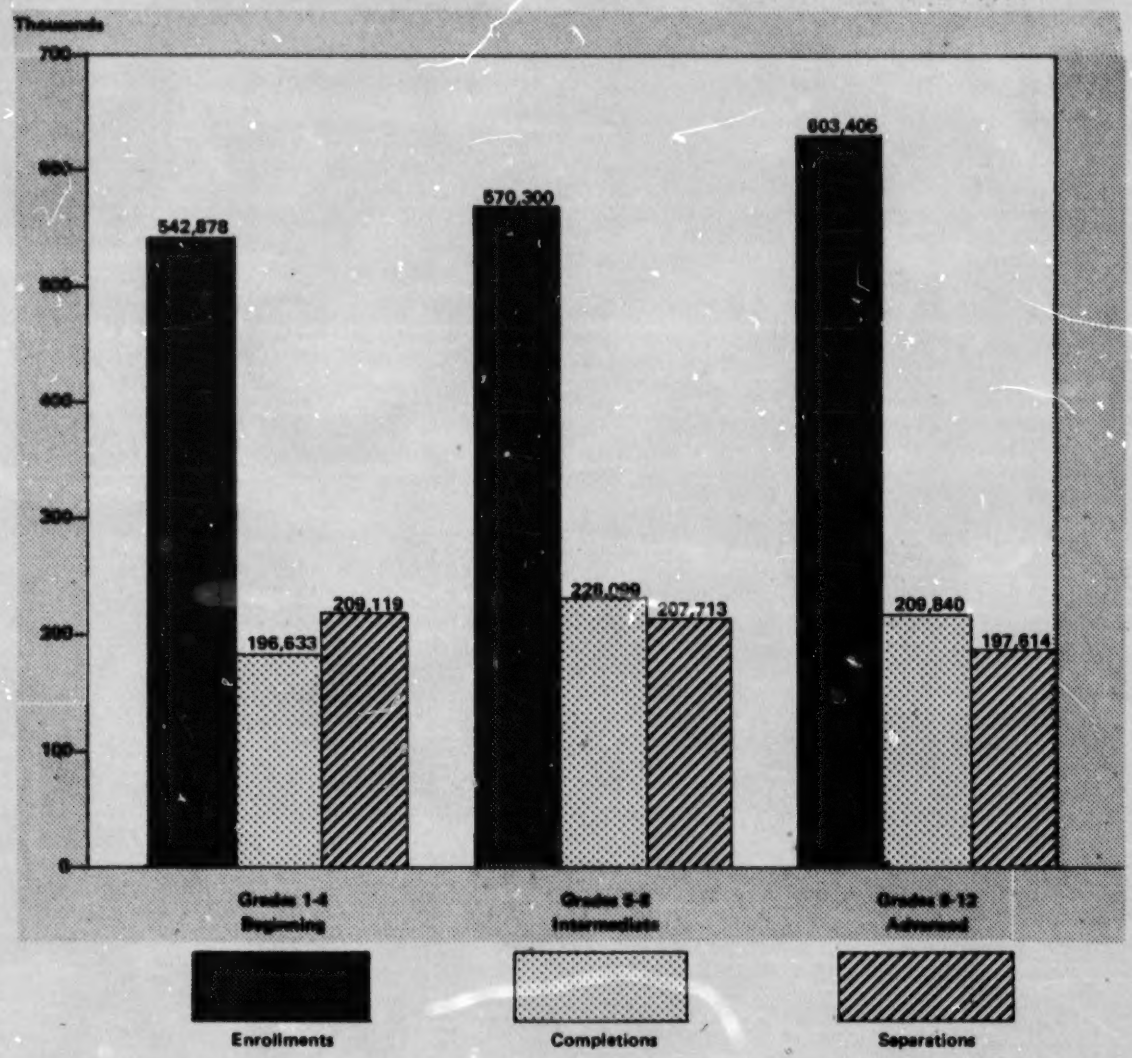


The categories used, and the number of participants in each, are shown below:

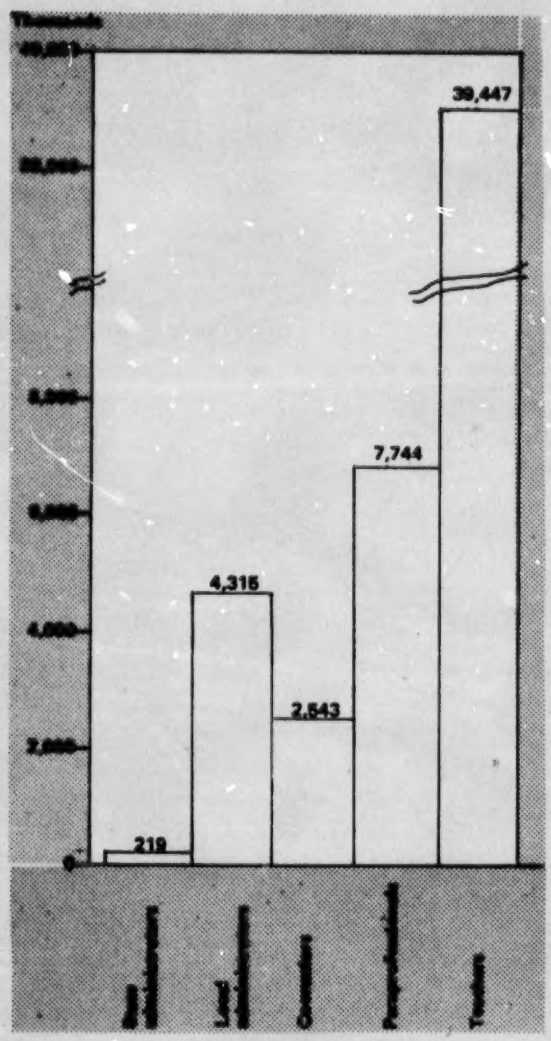
Beginning level	Grades 1 through 4	542,878
Intermediate level	Grades 5 through 8	570,300
Advanced level	Grades 9 through 12	603,405

Table 22 presents details on the numbers enrolled in each of these levels. Overall, 32 percent were enrolled at the beginning level, 33 percent at the intermediate, and 35 percent at the advanced level. Table 23 is a three-part table, showing the details on enrollment by level.

Facilities

A considerable number of adult basic and secondary education classes are conducted in other than traditional school settings. Table 24 shows enrollment and by type of building used. Tables 25

Chart 6.--Number of staff in adult basic and secondary education programs, by type: Aggregate United States, fiscal year 1976



and 26 present the same information for daytime and evening classes, respectively.

Special projects

Tables 27 and 28 present data for institutionalized persons and persons of limited English-speaking ability. Table 27 shows 85,860 institutionalized persons were enrolled in adult basic and secondary education programs in 1976. Programs for persons of limited English-speaking ability enrolled 326,049, with California comprising 46 percent of the total. Table 28 shows that 27,716 institutionalized persons withdrew before completing the programs. Of the 116,801 separations from programs for persons of limited English-speaking ability, 59 percent were in California.

Table 29 presents data on demonstration and teacher training projects funded under Sec. 309 of the Adult Education Act.

Data for tables 27, 28, and 29 were taken from supplementary performance reports submitted by the States and other areas to the U.S. Office of Education. As 1975 was the first year these reports were required, it is consistent with response rates of previous surveys that some States or other areas would not reply even during the second year.

Tables 30, 31, and 32, which appear for the first time in this report, present data on adult basic and secondary programs for Indochinese refugees. Table 30 shows enrollments by type and level of instruction. Table 31 shows numbers of grantees, refugees resettled, and refugees participating in the programs. Table 32 presents staffing data for these programs. Sixteen States and outlying areas did not respond to the supplemental survey form dealing with programs for Indochinese refugees; however, some or all of them may not have had refugee programs.

DETAIL TABLES

In these tables the following symbols are used:

NA = No data provided by State
O = State indicated zero
Percent details may not add to 100.0 because of rounding

Survey Report Form

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION
WASHINGTON, D.C. 20202

FORM APPROVED
O.M.B. NO. 51-R1058

INSTRUCTIONS FOR PREPARING THE ANNUAL PERFORMANCE REPORT FOR ADULT EDUCATION STATE GRANT PROGRAMS *(13.400)*

Table 1. Reports the population that is being served by adult education classes in the State with Federal, State and/or local funds under P.L. 91-230. It should include participants from other Federal programs such as Manpower and WIN for whom any direct services are being provided at clearly additional cost to the program *(e.g., when an influx of 40 WIN participants would necessitate operating 2 or 3 extra classes)*. Every participant that completed 12 or more hours of instruction during the fiscal year July 1 through June 30 should be included in this table.

A participant's age is to be reported as age at time of first class attended during the fiscal year.

The total number of adult education participants reported in Table 1, Line 7, of Total Column (l) should agree exactly with the total figure reported in Table 2, Part A, Line 4, Column (e).

Table 2. Combines important data on starting levels, completions, and separations. As with Table 1, only participants who attended 12 or more hours of instruction during the fiscal year should be reported. Because of student advancement across instructional levels during the period of this report, the total number of students enrolled *(i.e., the unduplicated count)* reported in column (e) may or may not equal the total number of enrollees reported by instructional levels in column (b), Line 4. The total figure reported in Table 2, Part A, Line 4, Column (e) should agree exactly with the total reported in Table 1, Line 7, of Total Column (l).

Completions. In Table 2, Part A, column (c), report the number of students who completed the beginning, intermediate, or advanced level of instruction during the fiscal year. Students who left the program during the fiscal year because they completed the intermediate or advanced levels should not be counted as separations, but as completions. Count separations one time only. For example, a female who separates because she has a baby-sitting problem may be said to have a family problem. However, it is more accurate and useful to report her separation once under "child care problems."

Separations. Report in Table 2, Part A, Column (d) the number of students who separated from the program before completion of the beginning, intermediate, or advanced levels of instruction for one or more of the reasons identified in Table 2, Part B. Reasons for separations have been delineated to show "positive" type reasons indicating certain program accomplishments, as well as problem-related reasons which may be amenable to State and/or Federal influence. For example, if health problems show up significantly in a given State as a reason for separations, the State administrator might encourage curriculum of personal health care, hygiene and nutrition. The total figure reported in Table 2, Part A, Line 4, Column (d) should agree exactly with the total reported in Part B, Item 13.

Until such time as special definitions have been developed for measuring adult performance levels, "Beginning" level *(to conform with census data)* is equivalent to Grades 1-4. "Intermediate" is equivalent to Grades 5-8. "Advanced" is equivalent to Grades 9-12.

Table 3. Shows where participants attended classes and the number of day and evening classes by type of classroom location. As with Table 1, and Column (b) of Table 2, the State should report on every participant that completed 12 or more hours of instruction during the fiscal year.

"School Building" can be either public or private. For purposes of this report, junior high buildings should be classified as elementary.

"Learning centers," for purposes of the adult education program and this report, and adult instructional settings featuring *(1)* extensive use of programmed instruction, *(2)* flexible participant scheduling and attendance, *(3)* being open for extended periods of time and on a daily basis, e.g. 9:00 a.m. to 5:00 p.m. In cases where learning centers are found in any of the other types of locations listed, participants should be counted as attending learning centers, not the other types.

"Correctional Institutions" can be Federal, State or local and include youth offenders 16 years of age or older as well as adults. Inmates are are the only ones to be included in this category.

"Hospitals" can be Federal, State or local; mental institutions are included. Hospital in-patients and out-patients are the only ones to be included in this category.

"Work sites" can be public or private, as long as they are operating places of employment for the participants. If hospital or correctional employees are trained at their respective job locations, they would be counted under the "work site" category.

"All other locations" would include those that do not fit into one of the above categories. Church and storefront locations and four year colleges are among those that would generally fall into this category.

Table 4. Requires data on numbers of personnel and their full-time equivalence for five different personnel categories. It also provides for indication of the amount of State and/or local pre-service or in-service adult education program-related training received by paid personnel during the fiscal year.

In column (b) count one time only each employee of the State Department of Education who is being paid out of Federal, State and/or local adult education funds. Each employee should be placed in the personnel category where he does most of his work. "Administrative and Supervisory personnel" includes teacher trainers and curriculum, counseling and guidance specialist.

In column (c) convert the personnel in column (b) to an equivalent number of full-time personnel according to the formula or method used by the State in determining full time employment in each of the different job categories.

"State or Local Training" is not to include any "309(b) and (c)" funded training. It should include other training that is clearly related to the program effort under the personnel categories listed above. A "clock hour" refers to a period of instruction of at least 50 minutes in length.

Table 5. Provides for various impact information concerning the State adult education program. Supply accurate data if it is available on a Statewide basis for any of the listed items.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION
WASHINGTON, D.C. 20202

ADULT EDUCATION ANNUAL PERFORMANCE REPORT

PERIOD COVERED		FORM APPROVED O.M.B. NO. 51-R1852
FROM	TO	
STATE		DATE OF REPORT

INSTRUCTIONS

The principal purpose of the report is to allow States to make better use, for planning purposes, of information found in the five tables. The report has several other purposes at the Federal level. It serves the Office of Education by providing a standardized data-collection format for use by all States. The collected information is used to publish reports and respond to inquiries. More importantly, the report is used as a program tool for the Office of Education to assess the impact of adult education at the State, Regional and National levels. Such information provides a basis for changes in National policy, redirection of resources, and provision of various forms of assistance to States.

The first table is concerned with various characteristics of the population served, the second table with instructional levels and participant separations, the third table with number of participants by location of classes and number of day and evening classes by location. The fourth table is related to staffing patterns of paid State and local personnel and the amount of program-related training in which they are participating. The last table is concerned with impact of the adult education program.

The new alignments of data in the tables permit the State Administrator to look at the overall performance of the State program. For this report to be of maximum value to both State and Federal program officials it is better that figures which are considered unreliable not be included in the report. *(Where no reliable figures are available, the appropriate spaces in the reporting tables should be lined through.)*

To make the best possible use of this information system the State Administrator should insist upon timely and accurate reporting of data from local jurisdictions. For Federal purposes, a signed original and two copies of the report should reach the HEW Regional Office no later than October 1.

TABLE 1. NUMBER OF PARTICIPANTS BY RACE, SELECTED ETHNIC GROUPS, AGE AND SEX

AGE	AMERICAN INDIAN		NEGRO/ BLACK		ASIAN AMERICAN		SPANISH-SURNAMED		OTHER INDIVIDUALS NOT INCLUDED IN COLS. *(b) thru (i)*		TOTAL Cols. *(a)* thru *(k)*
(a)	Male *(b)*	Female *(c)*	Male *(d)*	Female *(e)*	Male *(f)*	Female *(g)*	Male *(h)*	Female *(i)*	Male *(j)*	Female *(k)*	(L)
1. 16 - 24											
2. 25 - 34											
3. 35 - 44											
4. 44 - 54											
5. 55 - 64											
6. 65 PLUS											
7. TOTAL											

TABLE 2. PARTICIPANT PROGRESS AND SEPARATION DATA BY INSTRUCTIONAL LEVEL

PART A. NUMBER OF PARTICIPANTS

INSTRUCTIONAL LEVEL *(a)*	GRADES	NUMBER ENROLLED AT EACH LEVEL *(b)*	NUMBER COMPLETED EACH LEVEL *(c)*	NUMBER SEPARATED FROM EACH LEVEL *(d)*	TOTAL NUMBER OF ENROLLEES *(Unduplicated Count)* *(e)*
1. Beginning	(1 - 4)				
2. Intermediate	(5 - 8)				
3. Advanced	(9 - 12)				
4. TOTAL					

PART B. REASONS FOR SEPARATION *(Give the number of separations)*

1. To take a job *(unemployed when entered program)*		8. Because of child care problems	
		9. Because of family problems	
2. To take a better job *(employed when entered program)*		10. Because of time class/program is scheduled	
3. To enter another training program		11. For other known reasons *(Specify)*	
4. Met personal objective			
5. For lack of interest		12. For unknown reasons	
6. Because of health problems		13. TOTAL	
7. Because of transportation problems			

OE FORM 365-1,5/75 PREVIOUS EDITION IS OBSOLETE.

TABLE 3. NUMBER OF PARTICIPANTS AND NUMBER OF DAYTIME AND EVENING CLASSES BY TYPE OF LOCATION

LOCATION OF CLASSES (a)	NUMBER OF PARTICIPANTS (b)	NUMBER OF DAYTIME CLASSES (c)	NUMBER OF EVENING CLASSES (d)
SCHOOL BUILDING: 1. a. Elementary/Junior			
b. Secondary			
c. Community College *(Junior College, Technical Institute, etc.)*			
2. Learning Center			
3. Correctional Institute			
4. Hospital			
5. Work Site			
6. Other Locations *(including 4-yr. coll.)*			
7. TOTAL			

TABLE 4. NUMBER OF PAID PERSONNEL, BY LOCATION AND TYPE OF EMPLOYMENT, AND BY AMOUNT OF TRAINING

(NOTE: Include in this table information for only those persons who are paid from funds granted under the Adult Education Act. Please specify the various formulas or methods used in each of the categories. Use a separate sheet of paper and attach.)

ORGANIZATIONAL PLACEMENT AND TYPE OF JOB PERFORMED (a)	PAID ADULT EDUCATION PERSONNEL					
	TOTAL NUMBER OF PERSONNEL (b)	EQUIVALENT NUMBER OF FULL-TIME PERSONNEL (c)	AMOUNT OF STATE AND/OR LOCAL TRAINING *(in clock hours)*			
			NO. TAKING 1-16 HOURS (d)	NO. TAKING 17-40 HOURS (e)	NO. TAKING 41 OR MORE HOURS (f)	NO. TAKING NO HOURS (g)
1. State Level Administrative & Supervisory Personnel						
2. Local Administrative and Supervisory Personnel						
3. Local Teachers						
4. Local Counselors						
5. Local Paraprofessionals						
6. TOTAL						

TABLE 5. STATE ADULT EDUCATION PROGRAM IMPACT DATA

PERSONS WHO –	NUMBER OF PERSONS	PERSONS WHO –	NUMBER OF PERSONS
1. Are enrolled in an urban ABE Program *(Community population over 100,000)*		11. Enrolled in other education/training program *(Employee development, community college, junior college, four-year college, business or technical institute, correspondence, other Federal, State or local manpower program as a result of experience in program)*	
2. Are enrolled in a rural ABE Program *(Community population under 2,500)*			
3. Are enrolled in program who are employed			
4. Are enrolled in program who are unemployed		12. Were removed from public assistance rolls	
5. Are enrolled in program who are receiving public assistance		13. Obtained jobs as a result of experience gained in program	
6. Are on waiting lists to enter program		14. Changed to or were upgraded to a better job as a result of experience in program	
7. Completed ABE Program through eighth grade		15. Registered to vote for the first time	
8. Enrolled in high school program *(Grades 9 through 12)* after completing ABE Program		16. Received U.S. citizenship	
9. Passed general education development test		17. Received driver's license	
10. Graduated from high school after starting in ABE Program		18. Received training in completing income tax forms
